Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

Title: Passenger Ferry Grant Programs, Electric or Low Emitting Ferry Pilot Program, and Ferry Service for Rural Communities Program

OMB Control Number: 2132-0583

Background: The Bipartisan Infrastructure Law, enacted as the Infrastructure Investment and Jobs Act, established two new grant programs Electric or Low-Emitting Ferry Pilot Program (IIJA 71102) and Ferry Service for Rural Communities (IIJA 71103). Funding for these two new programs was announced on July 11, 2022, in a joint Notice of Funding Opportunity (NOFO) with FTA's existing Passenger Ferry Grant Program (49 U.S.C. 5307(h)). The Passenger Ferry Grant Program provides competitive funding for projects that support passenger ferry systems in urbanized areas. The Electric or Low-Emitting Ferry Pilot Program makes Federal funds available competitively to projects that support the purchase of electric or low-emitting ferry vessels. The Ferry Service for Rural Communities Program makes Federal funds available competitively to States and territories to ensure basic essential ferry service is provided to rural areas. FTA will use an online, web-based grant management system to collect the following information:

- Legal name of the applicant (i.e., the legal name of the business entity), as well as any other identities under which the applicant may be doing business.
- Address, telephone, and email contact information for the applicant.
- Legal authority under which the applicant is established.
- Name and title of the authorized representative of the applicant (who will attest to the required certifications).
- DOT may also require the identity of external parties involved in preparation of the application, including outside accountants, attorneys, or

auditors who may be assisting the business entity that is applying for assistance under this program.

- The specific statutory criteria that the applicant meets for eligibility under this program. The statute defines eligible applicants to include municipalities or community owned utilities excluding for-profit entities. Accordingly, DOT will require the applicant to identify which of these categories they meet, and how.
- Location where the applicant was legally established, created, or organized to do business. This information and supporting documentation will be required to demonstrate how the applicant meets the statutory requirement to be “established, created, or organized in the United States or under the laws of the United States.”
- Other identification numbers, including but not limited to the Employer/Taxpayer Identification Number (EIN/TIN), Data Universal Numbering System (DUNS) number, Unique Entity Identifier under 2 CFR part 25, etc. All applicants will be required to have pre-registered with the System for Award Management (SAM) at <https://sam.gov/SAM/>.
- Description of the applicant’s business operations, in sufficient detail to demonstrate how the applicant meets the statutory requirement as a municipality or community owned utility.
- Responses to the evaluation criteria and selection consideration statements as outlined in the NOFO.

FTA estimates that it will take applicants approximately 10 hours to complete the application process. FTA estimates that grant recipients will spend another 4 hours, annually, submitting post-award reports. The burden estimate below accounts for the total amount of effort involved.

Respondents: Public transportation providers, local governmental entities, States, and federally recognized Tribes that operate a public ferry system.

Estimated Average Total Annual Respondents: 30

Estimated Average Total Responses: 60

Estimated Annual Burden Hours: 420
